

Oakridge Estates

EXTERIOR PAINT COLORS

Body colors are for the stucco and veneer/siding portions of the house.

Trim colors are for the wood trim.

Accent colors are for front doors and shutters only. (In most cases, you will not need or use an accent color.)

Caution: The color renderings of the approved paint chips below have been created from the color's associated RGB (red-green-blue) value in the range of 0 to 2²⁴-1, mimicking what Dunn-Edwards had done on their website. (For example, the value of the color **Cliff Brown** is **208-171-140**.) Many factors influence the way colors appear on a computer monitor or printer; therefore, you should treat the colors you see here with some caution. Use this web page as a starting point in any quest to select new paint colors for your home. When you have narrowed down your choices, go to the Dunn-Edwards store for paint chips or quart paint samples to assist you in making your final decision. You can also [order color chips FREE](#) by mail directly from Dunn-Edwards. And don't forget to submit an architectural request!

COLOR GROUP TABLE

GROUP NO	COLOR	BODY (stucco & siding)	DUNN-EDWARDS NO	COLOR	TRIM	DUNN-EDWARDS NO	COLOR	ACCENT (front doors & shutters only)	DUNN-EDWARDS NO
